Why are we here?

To discuss the trends and needs of the mining sector to improve the competitiveness of mining operations navigating current challenges such as climate change and electrification, transforming assets to achieve its operational excellence

¿Por qué estamos aquí?

Para discutir las tendencias y necesidades del sector minero y mejorar la competitividad de las operaciones mineras enfrentando los desafíos actuales, como el cambio climático y la electrificación, transformando los activos para alcanzar la excelencia operacional

Our panelists today

Tina Armstrong

Global Managing Director Metals
Hatch Board Member

Hatch's top expert in process engineering & study management for diverse metallurgical projects spanning all phases of major initiatives, since 1998

Jim Sarvinis

Global Managing Director Energy
Hatch Board Member

Heavily involved in development of new technologies and first-of-a-kind projects, has been influential in creating and growing Hatch's Energy capabilities and business, since 1995

Trevor Bergfeldt

Global Director
Decarbonization

Delivering innovative technical solutions to sustainability challenges in the mining and metals sector

Matt Cramer

Senior Principal
Advisory Management

Driven by difficult challenges at the intersection of technical and organizational functions
